Self-serve Financial Solutions for the Underbanked

Market Need

As the Internet continues to transform the retail marketplace, the Underbanked consumer represents a large and growing segment of retail sales. Offering convenient access to everyday financial services at fair prices is a powerful tool to attract and build loyalty from this group. Nexxo Managed Services provide a way for retailers to offer these financial products, such as check cashing, bill pay and money transfer to their Underbanked customers in an automated and cashless manner. Nexxo's service seamlessly integrates into a retailer's existing pre-paid card program, driving increased utilization and lifetime value.

Key Features of Nexxo Managed Services

- Kiosk design, configuration, deployment & servicing
- English and Spanish customer care
- Financial operations management
- Compliance & licensing
- Platform hosting
- Pricing and promotions management
- Product catalogue management
- Field force management
- Flexible 3rd party processor gateway architecture
- Pre-paid debit card integration

Full Suite of Integrated Financial Services

Nexxo provides consumers access to the all their financial products on a single screen, which can be unified with a retailer's card program and personalized to their needs.

Key Benefits for Retailers

Through adoption of Nexxo Managed Services, retailers have an opportunity to provide their underbanked customers with the full suite of financial services, fully integrated with their card programs. Nexxo provides end-to-end management of the service, from kiosk operation to financial operations and settlement, allowing retailers to realize the following benefits:

- Financial services delivery without the need to establish a financial services infrastructure
- Kiosk-based service delivery eliminates cash handling
- Dramatically reduced staffing as compared with over-the-counter delivery
- Reduced operational costs as compared with traditional delivery 24/7 operation
- Minimal in-store footprint
- A 360° view of customer activity allowing for targeted promotions & marketing
- In-store staff can be focused on core business and/or high-touch products
- Full financial services integration with the pre-paid card increases card lifetime and utilization
- Provides a platform to cross-sell and promote core retail products

Key Customer Benefits

Customers of Nexxo's retail partners enjoy the ability to manage all their financial relationships from a single screen. Customers are able to quickly pay a domestic or international bill, send money abroad, cash a check, reload and debit a pre-paid card, purchase a money order, and top up a domestic or international pre-paid phone.

- Simple and intuitive touch screen interface
- Fast transaction time – no waiting in lines
- Single registration
- Highly secure, private and reliable
- Ability to transact during non-business hours
- Stored accounts, billers and beneficiaries enhances personalization and further reduces transaction times
- Integrated, on-kiosk, bi-lingual phone support available
